JDW-Weather, nuts & bolts that have to be tightened by tomorrow and above all the Gregory-centered Disinformation are wasting much time. I've gone over your valuable enclosures with your 2/10 except the article, which I want to read when there is little likelihood of interruption, and here before filing (Tiger) want to ask if you'd please check the phone book and give me Fay's address. I've been wanting to write him because of what he said earlier. More than these generalities could be helpful for Tiger, to which I so long to be able to return! (SFChron 2/10/75, "Old Friend Talks About Kennedy and Vietnam.")

Even Bud is now sick over this stuff. And he has word that Church is considering appointing Burke Marshall chief investigator. Via Lesar he asked my help and by same back channel I've made suggestions. Best HW 2/14/75
